My skills can encrypt your computer, your targets computer without any one being the wiser. I can provide any key to open the information for you.

I am a professional, and our assignment will be carried out with swiftness and can have some fun after shocks! Vigilantes can have some assist

some evidence once you are afraid of the people coming too close to catching you I can also assist there as well.

I only take one assignment at a time so while my loyalty is only assignment thin if a sting needs to be done have no fear that I will not be working for
both sides at the same time. So if you need to convict or save your skin better hire me before someone else does.
